Stay On Track

An encouragement from the Lord:

Stay on track, look away from all that would distract. Behold only Me and pursue only what will bring Me glory. For I AM all you need, your very present All Sufficient One.

The seasons may change but the track remains. The calling and the destination have been preordained. Keep moving along this track, covered and protected for I have your back.

All else will pale in comparison with the knowledge of My name and the awareness of My presence as we walk this track on into heaven.
